Art Unit: 1774

1. The following is an examiner's statement of reasons for allowance: Applicants correctly argue in the first full paragraph on page 8 of their latest response that, unlike the present claims, the portion of the Beltzung et al. transfer member (i.e., compressible layers 3-5) which correspond to applicants "conforming layer" is not immediately beneath the release layer (i.e., there is an intervening hard elastomer layer 2).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
